

Temperature Probe

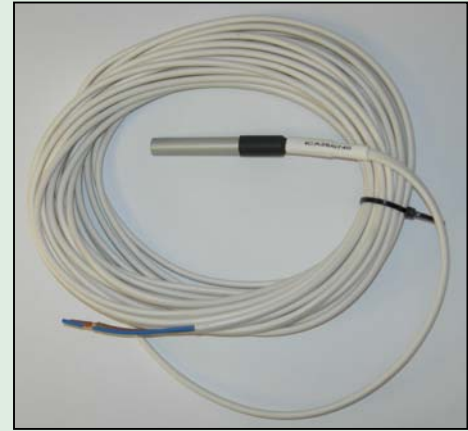

ICA28

The ICA 28 is a precision temperature sensor which is widely used in fruit and vegetable storage rooms.

It has a high accuracy eliminating the need for individual calibration on site and it can be used with long connection wires without causing any significant measurement errors.

Compatible with industry standard DBI220 Probes.

Supplied with 10m or 20m attached cable.

- High Accuracy
- Long connection cables
- Industry standard 220 type
- For use with ICA61, ICA38, ICA80 and other ICA equipment

Specifications :

Temperature range:	-10 to +40 deg C
Accuracy at 0 deg C	+/- 0.15 degC
Stability	< 0.1degC over 5 years
Resistance at 15 degC	23.58 Kohm
Effect of wiring resistance	100ohm =0.1 degC error at 0C

Distributor :

International Controlled Atmosphere Ltd Instrument Division

Lawrence House, Transfesa Road,
Paddock Wood, Kent TN12 6UT
